Virtual Primary Care How to Use

What is Virtual Primary Care?

Virtual Primary Care (VPC) provides patients face-to-face visits with their physicians across devices. With VPC, patients can connect with a physician by phone or video technology, enabling both the physician and patient to experience the complete benefit of establishing a relationship, without having to visit a doctor's office.

Simple as 1, 2, 3

1 Call | Tap | or Click

Call 1.866.223.8831, download the [Lyric Health App](#), or visit www.getlyric.com to log into your member portal to schedule a consultation with state licensed physician.

2 Schedule

Select your preferred provider and the date and time for your appointment. Update your Electronic Health Record (EHR), and receive your confirmation reminders prior to your appointment.

3 Consult

Physician will contact you at your scheduled appointment time via phone or video technology.

When to use

Our goal is to provide you with convenient, affordable healthcare, when you need it most. Members select a Primary Care Physician to manage their routine and ongoing health conditions, medication management, and preventative care.

- Management of health conditions over time
- Lab tests & routine screening
- Health assessment screening & evaluation
- Medication management, including on-going refills
- Referral to see Specialists

1.866.223.8831 | www.getlyric.com

Licensed healthcare providers provide clinical services through medical practices affiliated with Lyric and other network providers. Additional or different telehealth requirements may be applicable in certain states; see www.getlyric.com for full terms and conditions.
